Watch the LION 2010
Broadcast on
LION TV Channels
1 or 2

Thanks to its new upgraded configuration the 5th LION Broadcast will offer access to 2 channels of real-time simultaneous live surgery and discussion. This configuration will also be available by live internet streaming.

How to take part in this event ?

You can participate to the 5th LION Broadcast in two ways :

A High Definition Videoconference Hall

Each conference hall will be fully equipped with a HD videoconferencing system. This allows for real-time interaction

between the faculty and the delegates in the conference hall facilities. There will be videoconference halls available in several countries throughout the world. You can choose your nearest videoconference hall and register on-line at www.lion-web.org.

You will receive a confirmation of your registration by e-mail. A modest registration fee including conference attendance, lunches and refreshments may be applied. This will be decided by the respective organisers at each conference hall location.

The list of videoconference halls in each country will soon be available at the LION web site.

Live Internet Streaming

To watch live LION 2010 TV Channels 1 or 2 online on your computer go to :

www.lion-web.org.

Click on Internet Streaming and follow the instructions.

access is free and no password is required. Simply select the desired channel and watch the corresponding program. Send your questions to the faculty via the moderators by e-mail at: lion2010@lion-web.org

The LION Network is powered by:

THE WORLD CLOCK: Time Zone Difference

The timings of LION 2010 are published according to GMT+2 time zone. Please check your corresponding local time zone to make allowance for this.

Live surgery, case presentation & panel discussion in Otology & Neurotology

Global strategies for:

- Otosclerosis**
- Ossicular reconstruction**
- Cholesteatoma**
- Implantable hearing aid**
- Cochlear implant**
- Vestibular neurectomy**
- Vestibular schwannoma**

The 5th LION Broadcast will start at 08:30 and will conclude at 18:00

The aim of LION is to create a permanent interactive worldwide high speed network for Continuing Education in Otolaryngology and to promote distance learning using modern videoconferencing technologies.

The 5th LION Broadcast is the one day annual intensive global meeting of the LION Foundation, covering various surgical situations and demonstrating many different practical techniques of both middle ear and skull base surgery. It will include 20 live operating demonstrations and several panel discussions which will be moderated from the LION Hub in Utrecht.

Interaction with the faculty will be possible from one of the 40+ videoconference hall available worldwide or by e-mail from any computer.

Moderators from the LION Hub in Utrecht (Netherlands)

Chris Aldren

Cor Cremers

John Oates

Gerry O'Donoghue

Shakeel Saeed

Surgeons

Seventeen well known and expert surgeons from around the world have been invited by the scientific committee of LION to demonstrate and discuss their surgical indications and techniques from their own operating room in North America, Brazil, Dubai, Turkey, Spain, Netherlands, Italy, France, Germany and Poland.

Final program and list of videoconference halls in each country will soon be available at: www.lion-web.org
